Objective

Dedicated and creative web developer with a comprehensive background in front-end technologies, game design, and programming. Equipped with strong problem-solving skills and a passion for crafting visually stunning and user-friendly digital experiences. Seeking to contribute technical expertise and innovative thinking to a forward-looking company or project where I can continue to grow and develop cutting-edge web applications and immersive games.

Education

Jeevandhara Convent School, [Lucknow, U.P] — High School & Senior Secondary
 - Honored with the title of Sports Captain and Mr. Versified for excellence in poetry.

Professional Courses

CS50's Introduction to Computer Science — *Harvard University*

- Gained a broad understanding of computer science fundamentals, including algorithms, data structures, and problem-solving techniques.

CS50's Introduction to Programming with Python — *Harvard University*

- Developed skills in Python programming, covering data types, control structures, functions, and object-oriented programming.

CS50's Introduction to Databases with SQL — *Harvard University*

- Learned the fundamentals of SQL, including database design, querying, and data manipulation.

CS50's Introduction to Game Development — *Harvard University*

- Explored the basics of game development, including game mechanics, physics engines, and 2D/3D graphics using languages like C# and frameworks such as Unity.

Introduction to Game Design — *MIT*

- Studied the principles of game design, focusing on player experience, game mechanics, and prototyping.

Introduction to Web Development with HTML5, CSS3, and JavaScript — *IBM*

- Gained proficiency in front-end web development technologies, including HTML5, CSS3, and JavaScript, with a focus on creating responsive web pages.

The Complete 2024 Web Development Bootcamp — *Udemy*

- A comprehensive course covering full-stack web development, including HTML, CSS, JavaScript, Node.js, Express, MongoDB, and version control with Git.
